Published Reports and Memoranda of the Aeronautical Research Council

Reports and Memoranda No. 2850

November, 1957

Below is given a list of the Reports and Memoranda published by the Aeronautical Research Council. The reference numbers other than the R. & M. numbers are not consecutive, as many reports are confidential to the Council and not for issue to the public.

Normally every R. & M. is bound into the Annual Technical Volume bearing the same year as the date of the original report. Owing to the post-war difficulties of publication this procedure will not be able to be rigidly adhered to, and such R. & M. which are not available at the time of compilation of the Annual Technical Volumes will be combined together in special volumes. Those R. & M. below marked with a star will be thus dealt with.

Monographs are not incorporated in Annual Technical Volumes.

R. & M. No. 2600, entitled Index of all Reports and Memoranda published in the Annual Technical Reports and separately, is published by H.M.S.O. at 2s. 6d.

Similar previous lists of the Council's published papers are Reports and Memoranda Nos. 650, 750, etc., to 2750. For a classified list of reports on sale as separate issues, with prices, application should be made to H.M. Stationery Office (Government Publications, Sectional List No. 8).

R. & M. No.	Council No.	Title	Author
2751	12,838 13,499	Experiments on conical diffusers. November, 1950.	Squire, H. B.
2752	12,131	Low speed wind tunnel tests of Fowler flaps, slats and nose flaps on a model of a jet aircraft with a 40-deg swept-back wing. November, 1948.	Spence, A.
2753	13,475	Note on the effect of variable wall temperature (being an Addendum to "Heat transfer calculation for aerofoils" by H. B. Squire (R. & M. 1986). (November, 1942.) October, 1950.	Squire, H. B.
2754	12,981 14,025	On the application of oblique co-ordinates to problems of plane elasticity and swept-back wing structures. January, 1950.	Hemp, W. S.
2755	13,115	Chemical solids as diffusable coating films for visual indication of boundary-layer transition in air and water. February, 1950.	Main-Smith, J. D.
2756	12,563	The loss in climb performance relative to the optimum, arising from the use of a practical climb technique. August, 1949.	Lush, K. J.
2757	12,951	A survey of performance reduction with particular reference to turbo-propeller aircraft. January, 1950.	Lush, K. J.
2758	12,990	Elasticity of a sheet reinforced by stringers and skew ribs, with applications to swept wings. December, 1949.	Mansfield, E. H.

R. & M. No.	Council No.	Title	Author
2759	12,797	Notes on the dynamic response of an aircraft to gusts and on the variation of gust velocity along the flight path with special reference to measurements made in Lancaster P.D. 119. September, 1949.	Burns, A.
2760	12,963	An approximate solution of the compressible laminar boundary layer on a flat plate. November, 1949.	Monaghan, R. J.
2761	13,391	Flutter and divergence of swept-back and swept-forward wings. June, 1950.	Babister, A. W.
2762	13,377	Natural frequencies and modes of a model delta aircraft. June, 1950.	Gaukroger, D. R.
2763	13,286	Aerodynamic forces on rectangular wings oscillating in a supersonic airstream. August, 1950.	Acum, W. E. A.
2764	12,829	Polymethyl Methacrylate (Perspex type) plastics; crazing, thermal and mechanical properties. October, 1949.	Warburton Hall, H. Russell, E. W.
2765	13,360	The theoretical pressure distributions around some conventional turbine blades in cascade. March, 1950.	Hargest, T. J.
2766	12,605	The initial buckling of a long and slightly bowed panel under combined shear and normal pressure. June, 1949.	Brown, E. H. Hopkins, H. G.
2767	7046 7133	Note on the influence of aspect ratio on the variation with Mach number of the lift and hinge moment characteristics of a wing and full span control. August, 1943.	Young, A. D. Owen, P. R.
2768	13,733	Some preliminary model experiments on the whirling of shafts. June, 1950.	Downham, E.
2769	13,500	Some additional notes on the derivation of airworthiness performance climb standards. February, 1950.	Weaver, A. K.
2770	11,062	A method of performance reduction for helicopters. October, 1947.	O'Hara, F.
2771	11,786 12,221	A calculation of the complete downwash in three dimensions due to a rectangular vortex. March, 1949.	Lehrian, D. E.
2772	10,482	Forced flow against a rotating disc. April, 1947.	Hannah, D. M.
2773	13,001	Flow patterns in the wake of an oscillating aerofoil. March, 1950.	Bratt, J. B.
2774	13,452	The effect of sweep-back on the fundamental derivative coefficient for flexural motion. October, 1950.	Bratt, J. B. Wight, K. C.
2775	12,737	Stresses in built-up beams due to an abrupt change in shear stress at a loading section. August, 1949.	Taylor, J.
2776	11,500	The effect of compressibility on the attitude of aircraft in rectilinear flight. March, 1948.	Lush, K. J.
2777	13,050	Corrections for symmetrical swept and tapered wings in rectangular wind tunnels. April, 1950.	Acum, W. E. A.
2778	12,550	The elastic stability of sandwich plates. March, 1949.	Hunter-Tod, J. H.

R. & M. No.	Council No.	Title	Author
2779	13,436 14,695	The effect on transition of isolated surface excrescences in the boundary layer. Part I. October, 1950. Part II. Brief flight tests on a Vampire I aircraft to determine the effect of isolated surface pimples on transition. October, 1951.	Gregory, N. Walker, W. S. Johnson, D.
2780	13,068	The Toepler schlieren apparatus. April, 1950.	Holder, D. W. North, R. J.
2781	12,387	The 9-in. × 3-in. induced-flow high-speed wind tunnel at the N.P.L., June, 1949.	Holder, D. W. North, R. J.
2782	13,269 13,268	Experiments with static tubes in a supersonic airstream. Parts I and II. July, 1950.	Holder, D. W. North, R. J. Chinneck, A. Holder, D. W. North, R. J.
2783	13,897	The boundary layer with distributed suction. April, 1951.	Head, M. R.
2784	13,366	Summary of the theoretical work done on the stability of thin plates (1939-1946). September, 1950.	Leggett, D. M. A.
2785	12,430	Notes on the transonic movements of wing aerodynamic centre. May, 1949.	Gates, S. B.
2786	13,411	Wind tunnel interference effects on measurements of aerodynamic coefficients for oscillating aerofoils. September, 1950.	Jones, W. P.
2787	13,447 13,507	Experiments on the flow past a porous circular cylinder fitted with a Thwaites flap. With Appendix. Smoke visualisation of flow past circular cylinder with Thwaites flap. October, 1950.	Pankhurst, R. C. Thwaites, B. Walker, W. S.
2788	13,446	Wind-tunnel tests on the prevention of boundary-layer separation by distributed suction at the rear of a thick aerofoil (N.P.L. 153). October, 1950.	Gregory, N. Pankhurst, R. C. Walker, W. S.
2789	11,412	Investigations on stalling behaviour, rudder oscillation, take-off swing and flow round nacelles in the Tudor I aircraft. December, 1947.	Lyons, D. J.
2790	12,601	Records of major strength tests. July, 1949.	Walker, P. B.
2791	10,786	Wind-tunnel measurements of yawing moment due to yawing (n_r) on a 1/5.5 scale model of the Meteor, Mark F.III. May, 1947.	Ross, J. G. Lock, R. C.
2792	12,711 12,308	An experimental study of three-dimensional high-speed air conditions in cascades of axial flow compressor blades. October, 1949.	Todd, K. W.
2793	13,308	Determination of reversal speed of a wing with a partial span flap and inset aileron. February, 1950.	Molyneux, W. G. Broadbent, E. G.
2794	13,755	Calculation of the effect of camber and twist on the pressure distribution and drag on some curved plates at supersonic speeds. September, 1950.	Roper, G. M.

R. & M. No.	Council No.	Title	Author
2795	13,896	Theoretical supersonic drag of non-lifting infinite-span wings swept behind the Mach lines. October, 1950.	Nonweiler, T.
2796	13,306	The flutter of swept and unswept wings with fixed root conditions. Part I.—Wind-tunnel experiments. Part II.—Comparison of experiment with theory. Part III.—Wing torsional stiffness criterion. January, 1950.	Molyneux, W. G.
2797	12,892 13,867	The performance after power failure of a helicopter with blade-pitch control. Parts I and II. September, 1951.	O'Hara, F. Mather, H. A.
2798	13,940	Note on the use of the three-dimensional shockwave recorder for studying interference in a supersonic wind tunnel. December, 1950.	Ormerod, A. O.
2799	13,915	An investigation of the disturbances caused by a reflected plate in the working section of a supersonic wind tunnel. November, 1950.	Ormerod, A. O.
2800	13,768	Wind tunnel tests on 2-dimensional supersonic aerofoils at $M = 1.86$ and $M = 2.48$. July, 1950.	Beastall, D. Pallant, R. J.
2801	13,485	Resonant vibration of helicopter rotor blades. June, 1950.	Morris, J.
2802	13,198	Two-dimensional wind-tunnel interference. June, 1950.	Whitehead, L. G.
2803	9714	A brief review of the problem of exhaust silencing. May, 1946.	West, F. L.
2804	12,399	Formulae for estimating the forces in seaplane-water impacts without rotation or chine immersion. January, 1949.	Monaghan, R. J. Crewe, P. R.
2805	10,675	Evaporation of drops of liquid. March, 1947.	Hardy, J. K.
2806	10,696	Kinetic temperature of propeller blades in conditions of icing. May, 1947.	Hardy, J. K. Brown, C. D.
2807	14,118	Treatment of the stagnation point in arithmetical methods. May, 1951.	Thom, A.
2808	13,624	The evaluation of downwash at large spanwise distances from a vortex lattice. December, 1950.	Garner, H. C.
2809	13,906	Control effectiveness tests at transonic speeds on an EC. 1250 section with 0.25 chord concave control. January, 1951.	Lawrence, T.
2810	12,895	Downwash measurements behind a 12-ft diameter helicopter rotor in the 24-ft wind tunnel. September, 1949.	Fail, R. A. Eyre, R. C. W.
2811	13,240 13,395 13,460 13,533	The two-dimensional subsonic flow of an inviscid fluid about an aerofoil of arbitrary shape. Part I.—Incompressible flow about a symmetrical aerofoil in a channel or free stream. Part II.—Incompressible flow about an asymmetric aerofoil in a free stream. Part III.—The influence factor method of calculating incompressible flow. Part IV.—Compressible flow. November, 1950.	Woods, L. C.
2812	13,687	Design and use of counting accelerometers. June, 1950.	Taylor, J.
2813	12,466	The simple harmonic motion of a helicopter rotor with hinged blades. April, 1949.	Zbrozek, J. K.

R. & M. No.	Council No.	Title	Author
2814	13,756	Velocity distribution on thin bodies of revolution at zero incidence in incompressible flow. July, 1950.	Neumark, S.
2815	13,728	Neutral holes in plane sheet-reinforced holes which are elastically equivalent to the uncut sheet. September, 1950.	Mansfield, E. H.
2816	11,534	The calculated performance of ethyl alcohol-water mixtures as rocket fuels with liquid oxygen. March, 1948.	Beeton, A. B. P.
2817	11,148	Aileron reversal and wing divergence of swept wings. September, 1947.	Broadbent, E. G. Mansfield, O.
2818	10,180	Swept wings in supersonic flight. December, 1946.	Gates, S. B.
2819	12,222	Theoretical calculations of the distribution of aerodynamic loading on a delta wing. March, 1949.	Garner, H. C.
2820	13,092	Note on aerodynamic camber. April, 1950.	Garner, H. C.
2821	13,541	Critical Mach numbers for thin untapered swept wings at zero incidence. November, 1949.	Neumark, S.
2822	9662	Diffusion of antisymmetrical loads into, and bending under, transverse loads of parallel stiffened panels. May, 1946.	Argyris, J. H.
2823	14,249	Stress concentrations at a cut-out in a swept wing. July, 1951.	Mansfield, E. H.
2824	13,379	Control surface flutter with the stick free. May, 1950.	Templeton, H.
2825	13,063	Criteria for the prevention of flutter of tab systems. January, 1950.	Wittmeyer, H. Templeton, H.
2826	13,721	Wind tunnel flutter tests on a model delta wing under fixed and free root conditions. September, 1950.	Gaukroger, D. R. Chapple, E. W. Milln, A.
2827	11,868	Report on the flow phenomena at supersonic speed in the neighbourhood of the entry of a propulsive duct. March, 1945.	Lean, G. H.
2828	12,398	Flutter problems of high speed aircraft. April, 1949.	Broadbent, E. G.
2829	14,158	An experimental investigation of the boundary layer on a porous circular cylinder. July, 1951.	Hurley, D. G. Thwaites, B.
2830	—	Kinetic temperatures of wet surfaces. A method of calculating the amount of alcohol required to prevent ice; and the derivation of the psychrometric equation. September, 1945.	Hardy, J. K.
2831	13,538	The influence of rolling moments on spin recovery as observed in model spinning tests. April, 1950.	Harper, D. J.
2832	10,983	The effect of uniformly-spaced flexible ribs on the stresses due to self-equilibrating systems applied to long thin-walled cylinders. August, 1947.	Mansfield, E. H. Fine, M.
2833	1880	An unconventional type of fatigue testing machine. July, 1935.	Aughtie, F. Cox, H. L.

R. & M. No.	Council No.	Title	Author
2834	13,964	Towing tank tests on a large six-engined flying-boat seaplane. To specification 10/46; Princess: Part II.—Porpoising stability, spray and air-drag tests, with improved step fairing, afterbody design and aerodynamic modifications. November, 1950. (Part I is R. & M. 2641.)	Smith, A. G. Wright, D. F. Owen, T. B.
2835	13,658	Flight trials of a rocket-propelled transonic research model. The R.A.E.—Vickers Rocket Model. March, 1950.	Staff of Supersonics Division, Flight Section, R.A.E.
2836	9476 10,181	A theoretical approach to the design of hydrofoils. September, 1946.	Warren, C. H. E.
2837	13,903	The stress distribution in a swept-back box-beam with perpendicular ribs. December, 1950.	Hovell, P. B.
2838	8367	The manoeuvrability of aircraft in circling flight. May, 1952. (Revised version of report dated January, 1945.)	Price, H. L.
2839	13,378	Symmetric flutter characteristics of a hypothetical delta wing. May, 1950.	Woodcock, D. L.
2840	7634	The turbulent boundary layer in compressible flow. November, 1943.	Cope, W. F.
2841	14,156	Aerodynamic coefficients for an oscillating delta wing. July, 1951.	Lehrian, D. E.
2842	14,334	The theoretical wave drag of some bodies of revolution. May, 1951.	Fraenkel, L. E.
2843	10,616	Low speed wind-tunnel tests on a model of a jet tailless aircraft. January, 1947.	Trouncer, J. Moss, G. F.
2844	12,804	Pressure-plotting and balance measurements in the high-speed wind tunnel on a half model of a 90-deg apex delta wing with fuselage. September, 1949.	Pindar, A. C. S. Collingbourne, J. R.
2845	14,708	Aerofoil design in two-dimensional subsonic compressible flow. March, 1952.	Woods, L. C. F/Lt.
2846	14,509	Alternating pressures and blade stresses in an axial flow compressor. June, 1951.	Forshaw, J. R. Taylor, H. Chaplin, R.
2847	14,337	Simple evaluation of the theoretical lift slope and aerodynamic centre of symmetrical aerofoils. October, 1951.	Garner, H. C.
2848	14,125	The geared-elevator tab and tail-unit stiffness requirements. April, 1951.	Niblett, L. T.
2849	13,531	Detailed observations made at high incidences and at high subsonic Mach numbers on Goldstein 1442/1547 aerofoil. November, 1950.	Pearcey, H. H.
2850	—	Published Reports and Memoranda of the Aeronautical Research Council. (Nos. 2751–2850.)	—

Publications of the Aeronautical Research Council

ANNUAL TECHNICAL REPORTS OF THE AERONAUTICAL RESEARCH COUNCIL (BOUND VOLUMES)

- 1939 Vol. I. Aerodynamics General, Performance, Airscrews, Engines. 50s. (52s.).
Vol. II. Stability and Control, Flutter and Vibration, Instruments, Structures, Seaplanes, etc.
63s. (65s.)
- 1940 Aero and Hydrodynamics, Aerofoils, Airscrews, Engines, Flutter, Icing, Stability and Control,
Structures, and a miscellaneous section. 50s. (52s.)
- 1941 Aero and Hydrodynamics, Aerofoils, Airscrews, Engines, Flutter, Stability and Control,
Structures. 63s. (65s.)
- 1942 Vol. I. Aero and Hydrodynamics, Aerofoils, Airscrews, Engines. 75s. (77s.)
Vol. II. Noise, Parachutes, Stability and Control, Structures, Vibration, Wind Tunnels.
47s. 6d. (49s. 6d.)
- 1943 Vol. I. Aerodynamics, Aerofoils, Airscrews. 80s. (82s.)
Vol. II. Engines, Flutter, Materials, Parachutes, Performance, Stability and Control, Structures.
90s. (92s. 9d.)
- 1944 Vol. I. Aero and Hydrodynamics, Aerofoils, Aircraft, Airscrews, Controls. 84s. (86s. 6d.)
Vol. II. Flutter and Vibration, Materials, Miscellaneous, Navigation, Parachutes, Performance,
Plates and Panels, Stability, Structures, Test Equipment, Wind Tunnels.
84s. (86s. 6d.)
- 1945 Vol. I. Aero and Hydrodynamics, Aerofoils. 130s. (132s. 9d.)
Vol. II. Aircraft, Airscrews, Controls. 130s. (132s. 9d.)
Vol. III. Flutter and Vibration, Instruments, Miscellaneous, Parachutes, Plates and Panels,
Propulsion. 130s. (132s. 6d.)
Vol. IV. Stability, Structures, Wind Tunnels, Wind Tunnel Technique. 130s. (132s. 6d.)

Annual Reports of the Aeronautical Research Council—

1937 2s. (2s. 2d.) 1938 1s. 6d. (1s. 8d.) 1939-48 3s. (3s. 5d.)

Index to all Reports and Memoranda published in the Annual Technical Reports, and separately—

April, 1950 - - - - R. & M. 2600 2s. 6d. (2s. 10d.)

Author Index to all Reports and Memoranda of the Aeronautical Research Council—

1909—January, 1954 R. & M. No. 2570 15s. (15s. 8d.)

Indexes to the Technical Reports of the Aeronautical Research Council—

December 1, 1936—June 30, 1939	R. & M. No. 1850	1s. 3d. (1s. 5d.)
July 1, 1939—June 30, 1945	R. & M. No. 1950	1s. (1s. 2d.)
July 1, 1945—June 30, 1946	R. & M. No. 2050	1s. (1s. 2d.)
July 1, 1946—December 31, 1946	R. & M. No. 2150	1s. 3d. (1s. 5d.)
January 1, 1947—June 30, 1947	R. & M. No. 2250	1s. 3d. (1s. 5d.)

Published Reports and Memoranda of the Aeronautical Research Council—

Between Nos. 2251-2349	R. & M. No. 2350	1s. 9d. (1s. 11d.)
Between Nos. 2351-2449	R. & M. No. 2450	2s. (2s. 2d.)
Between Nos. 2451-2549	R. & M. No. 2550	2s. 6d. (2s. 10d.)
Between Nos. 2551-2649	R. & M. No. 2650	2s. 6d. (2s. 10d.)
Between Nos. 2651-2749	R. & M. No. 2750	2s. 6d. (2s. 10d.)
