Foreword

1 CONTENT

- 1.1 *CAA Monthly Statistics* is prepared by the Civil Aviation Authority with the co-operation of the United Kingdom airport and airline operators; some of this information is required by the Civil Aviation Act, 1971. Statistics for the Channel Islands airports are provided by the Commandant for Jersey Airport and the Lieutenant Governor for Guernsey and Alderney Airports. The assistance from all these authorities is gratefully acknowledged.
- 1.2 Some of the figures included in *CAA Monthly Statistics* are provisional only and may be revised in later issues. Figures contained in monthly and quarterly tables have not been seasonally adjusted, but figures are given, in the tables covering past years, for the most recent six months and the corresponding six months one year earlier.

2 CONVENTIONS

- 2.1 **Symbols and Abbreviations** The following are used throughout:

+	= UK Customs airport
..	= not available
—	= nil or less than half the final digit shown
n.e.i.	= not elsewhere included
a.t-km	= available tonne-kilometres
xx	= not supplied
A.T. Movements	= Air Transport Movements

- 2.2 **Rounding of Figures** In tables where figures have been rounded to the nearest final digit, there may be an apparent slight discrepancy between the sum of the constituent items and the total as shown.
- 2.3 **Units of Measurement** Metric measurements are used throughout *CAA Monthly Statistics*.
Tonne = 1000 kilograms

Conversion factors (foot/pound system to metric system)

1 short ton (2000 lbs)	= 0.9072 tonnes
1 ton (2240 lbs)	= 1.0160 tonnes
1 statute mile (5280 feet)	= 1.6093 kilometres
1 short ton-mile	= 1.4600 tonne-kilometres

The explanations of other terms used throughout the Tables are contained in the section on Definitions immediately following the Tables.

3 ENQUIRIES

- 3.1 **Statistics** Enquiries concerning the information in *CAA Monthly Statistics* should be addressed to:

Civil Aviation Authority
Room T415
CAA House Tel. 01 379 7311 Ext. 2504 (Airline Statistics and General Enquiries)
45/59 Kingsway Ext. 2676 (Airport and Air Passenger Statistics)
London WC2B 6TE

- 3.2 **Distribution** Enquiries concerning orders and subscriptions should be addressed to:

Civil Aviation Authority
Printing and Publication Services
Greville House
37 Gratton Road
Cheltenham
Glos GL50 2BN

- 4 **CIVIL AVIATION STATISTICS FOR EARLIER YEARS** Statistics for the period from January 1968 to December 1972 were published in the Civil Aviation Series of the Department of Trade & Industry's *Business Monitors*.

The series comprise:

CA. 1	<i>Airport activity</i>	(Monthly)
CA. 2	<i>Air passengers</i>	"
CA. 3	<i>Air freight & mail</i>	"
CA. 4	<i>Airline operations</i>	"
CA. 5	<i>Airline operations</i>	(Quarterly)
CA. 6	<i>Domestic passenger traffic</i>	"
CA. 7	<i>Air passengers – international and cabotage</i>	"
CA. 8	<i>Airline financial statistics</i>	(Annually – 1968 to 1971 only)

Annual versions of CA. 1 to CA. 7 were also published.

Civil Aviation Statistics—January 1980

ACTIVITY AT UK AIRPORTS

1 Air Transport Movements

During January 1980 UK airports handled 69 000 air transport movements (13·9 per cent growth when compared with the same month in the previous year); of which 6·4 per cent were all-cargo movements. The number of scheduled movements rose by 17·2 per cent and the number of charter movements rose by 4·8 per cent. The UK operators' share of scheduled movements rose by 1·1 percentage points to stand at 76·2 per cent of the total and their share of charter movements rose by 2·7 percentage points to stand at 93·8 per cent of the total.

1.1 Air Transport Movements at London Area Airports

33 000 air transport movements were handled at the London area airports (11·7 per cent growth when compared with January 1979); of which 6·0 per cent were all-cargo movements. Heathrow reported the greatest increase in movements handled (2 503 additional movements; 12·9 per cent growth) followed by Gatwick with 1 104 additional movements (15·3 per cent growth) and Luton with 184 additional movements (14·7 per cent growth). Both Stansted and Southend reported decreases in movements handled (184 fewer movements; 41·9 per cent decline and 176 fewer movements; 16·8 per cent decline respectively).

1.2 Air Transport Movements outside the London Area

UK airports outside the London area handled 36 000 air transport movements (16·0 per cent growth when compared with January 1979); of which 6·8 per cent were all-cargo movements. Aberdeen reported the greatest increase in movements handled (1 166 additional movements; 25·4 per cent growth) followed by Manchester with 914 additional movements (31·3 per cent growth) and Edinburgh with 466 additional movements (28·6 per cent growth). Tees-side reported the heaviest fall in movements handled (85 fewer movements; 8·3 per cent decline brought about by additional movements handled in January 1979 resulting from a dispute involving road hauliers) followed by Humber-side with 78 fewer movements (16·5 per cent decline) and Penzance with 50 fewer movements (32·9 per cent decline). The decline at Penzance is artificial, oil exploration flights were performed during January 1979.

2 Terminal Passengers

3·6 million terminal passengers used UK airports during January 1980 (10·7 per cent growth when compared with the same month in the previous year). The number

of scheduled passengers handled rose by 13·8 per cent whilst the number of charter passengers handled fell by 1·1 per cent. The UK operators' share of scheduled passengers rose by 3·1 percentage points to stand at 64·8 per cent of the total and their share of charter passengers rose by 1·1 percentage points to stand at 89·4 per cent of the total.

2.1 Terminal Passengers at London Area Airports

The London area airports handled 2·5 million terminal passengers (8·8 per cent growth when compared with January 1979). Heathrow reported the greatest increase in passengers handled (199 261 additional passengers; 11·5 per cent growth) followed by Gatwick with 10 899 additional passengers (2·3 per cent growth) and Luton with 2 149 additional passengers (1·9 per cent growth). Stansted reported the heaviest fall in passengers handled (5 368 fewer passengers; 22·7 per cent decline) and Southend reported 825 fewer passengers (11·6 per cent decline).

2.2 Terminal Passengers outside the London Area

Outside the London area 1·0 million passengers used UK airports (15·6 per cent growth when compared with January 1979). Manchester reported the greatest increase in passengers handled (55 055 additional passengers; 36·7 per cent growth), followed by Belfast with 26 562 additional passengers (36·7 per cent growth) and Aberdeen with 23 867 additional passengers (28·8 per cent growth). Liverpool reported the heaviest fall in passengers handled (12 094 fewer passengers; 35·5 per cent decline) (due mainly to additional traffic handled in January 1979 during a firemen's strike at Manchester), followed by Tees-side with 2 312 fewer passengers (11·8 per cent decline) and Cardiff with 2 111 fewer passengers (11·2 per cent decline).

2.3 International Terminal Passengers

2·5 million passengers used international services during January 1979 (an increase of 6·3 per cent when compared with the same month in the previous year). The most heavily used international scheduled services were those to the USA (carrying 16·1 per cent of all international scheduled passengers) followed by those to France (carrying 9·5 per cent) and those to West Germany (carrying 8·5 per cent). The most heavily used international charter services were those to Spain (carrying 21·0 per cent of all international charter passengers) followed by those to Italy (carrying 18·4

per cent) and those to the Canary Islands (carrying 9·8 per cent).

3 Cargo

During January 1980 UK airports handled 58 000 tonnes of cargo (a decline of 15·0 per cent when compared with the same month in the previous year); of which 49·9 per cent was carried on all-cargo flights. The number of scheduled tonnes handled fell by 3·5 per cent and the number of charter tonnes handled fell by 42·2 per cent. Much of the apparent decline in cargo may have been caused through additional tonnage being handled in January 1979 during a dispute of road hauliers. The UK operators' share of scheduled tonnage rose by 3·1 percentage points to stand at 40·4 per cent of the total and their share of charter tonnage rose by 14·2 percentage points.

3.1 Cargo at London Area Airports

The London area airports handled 48 000 tonnes of cargo (a decline of 9·5 per cent when compared with January 1979); of which 49·9 per cent was carried on all-cargo flights. Only Gatwick and Luton reported increases in tonnage handled (1 128 additional tonnes; 11·8 per cent growth and 220 additional tonnes; 34·7 per cent growth respectively). Stansted reported the heaviest fall in tonnage handled (3 215 fewer tonnes; 91·6 per cent decline) due partly to the reduction in scale of British Cargo Airlines' operations, followed by Heathrow with 2 109 fewer tonnes (5·6 per cent decline) and Southend with 1 105 fewer tonnes (59·7 per cent decline).

3.2 Cargo outside the London Area

Outside the London area UK airports handled 10 000 tonnes of cargo (33·5 per cent decline when compared with January 1979); of which 68·3 per cent was carried on all-cargo flights. The greatest increase in tonnage

handled was reported by Blackpool (197 additional tonnes; 94·7 per cent growth) followed by Lydd with 148 additional tonnes (64·6 per cent growth) and Isle of Man with 16 additional tonnes (8·6 per cent growth). Tees-side reported the heaviest fall in tonnage handled (1 344 fewer tonnes; 99·0 per cent decline) due mainly to additional tonnage handled in January 1979 as a result of a dispute involving road hauliers, followed by East Midlands with 946 fewer tonnes (58·8 per cent decline) and Manchester with 769 fewer tonnes (24·7 per cent decline).

OUTPUT OF UK AIRLINES

The output of UK airlines for all services in January 1980 was 955 million available tonne-kilometres, an increase of 12·2 per cent on January 1979.

The scheduled service output of 728 million available tonne-kilometres was 21·1 per cent higher than a year earlier. The overall load factor was 56·5 per cent, compared with 57·0 the previous year. Seat kilometres used were 58·6 per cent of those available. Seat factors on domestic and international scheduled services were 53·4 and 58·9 per cent respectively compared with 55·9 and 61·8 per cent a year earlier. The non-scheduled output of 228 million available tonne-kilometres was 8·8 per cent lower than in January 1979. Advance Booking Charters and Inclusive Tour Charters on Class 3 licences accounted for 1·2 and 89·9 million available tonne-kilometres respectively compared with 7·4 and 77·8 million a year earlier.

NOTE: Statistics of airport activity, passengers and cargo are derived from data supplied by airports. Airline statistics are based on data supplied by the airlines. Data from these two sources are not strictly comparable. There are small differences in timing and more significantly differences arise because airlines are not asked to report non-revenue passengers and cargo.

(A) This table excludes all domestic passengers.

(i) Sumburgh not available for Jan.-Sept. 1979.

The following countries are included in the groupings below:—

(a) Albania, Bulgaria, Czechoslovakia, German Democratic Republic, Hungary, Poland, Rumania and United Soviet Socialist Republic.

(b) Cyprus and Malta.

(c) Jordan, Lebanon, Israel, Syria and Turkey.

(d) Algeria, Egypt, Libya, Morocco and Tunisia.

(e) Burundi, Djibouti, Ethiopia, Kenya, Rwanda, Somali Republic, Sudan, Tanzania and Uganda.

(f) Benin, Cameroon, Equitorial Guinea, Gabon, Gambia, Ghana, Guinea, Guinea Bassau, Ivory Coast, Liberia, Mali, Mauritania, Niger, Nigeria, Senegal, Sierra Leone, Togo, Upper Volta and Western Sahara.

(g) Angola, Central African Republic, Chad, Congo, Malawi, Zaire and Zambia.

(h) Botswana, Mozambique, Namibia, South African Republic, Swaziland and Zimbabwe.

(i) Iran, Iraq, Kuwait, Persian Gulf States, Republic of North Yemen, Republic of South Yemen, Saudi Arabia and United Arab Emirates.

(k) Bangladesh, India, Pakistan and Sri Lanka.

(l) Afghanistan, Bendar Seri Begawan, Burma, China Hong Kong Indonesia, Kampuchea, Korea, Laos, Malaysia, Nepal, Philippines, Singapore, Taiwan, Thailand and Vietnam.

(m) Belize, Costa Rica, Cuba, Dominican Republic, El Salvador, Guatemala, Haiti, Mexico, Nicaragua and Panama.

(n) Argentina, Bolivia, Brazil, Chile, Colombia, Ecuador, Guyana, Paraguay, Peru, Uruguay and Venezuela.

(o) Bahamas, Barbados, Bermuda, Curacao, Guadeloupe, Jamaica, Leeward Islands, Martinique, Puerto Rico, Trinidad and Tobago and Windward Islands.

(p) Faroes, Gibraltar, Iceland, Luxembourg, Atlantic Ocean Islands, Indian Ocean Islands, Pacific Ocean Islands.

- a. London includes Heathrow, Gatwick and Stansted.
- b. Glasgow includes Abbotinch and Prestwick.
- c. Copenhagen includes Kastrup and Roskilde.
- d. Excludes Schonefeld.
- e. Paris includes Charles de Gaulle, Orly and Le Bourget.
- f. Rome includes Ciampino and Leonardo Da Vinci/Fiumicino.
- g. Milan includes Malpensa and Linate.
- h. Oslo includes Gardemoen and Fornesu.
- i. Stockholm includes Bromma and Arlanda.
- j. Includes Berlin (Schonefeld).
- k. Moscow includes Sheremetyevo, Domodedovo and Vnukovo.
- l. Tenerife includes Norte Los Rodeos and Sur Reina Sofia.
- m. Tokyo includes Haneda and Narita.
- n. Melbourne includes Tullamarine International and Essendon.

- o. Montreal includes Dorval and Mirabel.
- p. Detroit includes City, Metropolitan and Willow Run.
- q. Chicago includes Midway, O'Hare, Meigs Field, Du Page and Pal-Waukee.
- r. Dallas includes Dallas/Ft. Worth and Love Field.
- s. New York includes John F. Kennedy, La Guardia and Newark.
- t. Rio de Janeiro includes Santos Dumont and Galeao.
- u. Buenos Aires includes Aero Parque and Ezeiza.
- v. St. Lucia includes Vigie and Hewanorra.
- w. Casablanca includes Anfa and Nowassuer.
- x. Monrovia includes Roberts International and Spring Payne.
- y. Colombo includes Katunayake and Ratmalana.
- z. Seattle includes Boeing Field and Tacoma.

NOTES

- 1) Groups in Table 2.12 are the same as for Table 2.11.
- 2) Traffic is only published for a country if the annual total exceeds 9,500 and for city to city if exceeding 17,500.
- 3) These figures are based on the origin and destination of passengers as reported to UK airport authorities by UK and foreign airlines. Operators are required to report in respect of each service operated, the point of uplift and discharge of each passenger. The figures may not reflect a passenger's entire air journey: the point at which a passenger disembarks from a particular service may not represent his ultimate destination.
- 4) Although operators are asked to report all passenger journeys, in some cases the actual point of uplift or discharge is not recorded. In such cases all passengers are allocated to the end point of the service, i.e. the aircraft's origin or ultimate destination. This has been the practice since the 1 January 1976 – before this date missing information was replaced by estimates made by the Authority. The figures in this Table include all passengers carried on scheduled and charter services excluding those carried on aircraft chartered by Government Departments.
- 5) Traffic at Sumburgh not available for January – September 1979.

(a) Excludes passengers uplifted on Air-Taxi operations.

(b) Comprises Guernsey, Alderney and Jersey.

(c) Excludes Kirkwall, Inverness and Sumburgh.

(d) These comprise scheduled routes where less than 10 passengers were uplifted and routes which operate on a non-scheduled basis only.

(e) These figures do not include traffic carried by Brymon Airways.

(A) From the January, 1980 edition of Monthly Statistics this table is compiled from returns made by UK airlines. It is not strictly comparable with previous versions of the table which were compiled from UK airport statistics containing non-revenue and Air-Taxi passengers.

(i) No breakdown given between passengers and cargo aircraft for these airports: all cargo is allocated to passenger aircraft.

Appendix A Definitions—UK Airport Statistics (a)

(a) There are some differences between the definitions used in Appendix A (UK Airport Statistics), and those used in Appendix B (UK Airline Statistics). These arise mainly because UK airlines are not asked to report non-revenue passengers or cargo.

MOVEMENTS

Aircraft movement	An aircraft take-off or landing at an airport. For airport traffic purposes one arrival and one departure are counted as two movements.
Air transport movements	are landings or take-offs of aircraft engaged on the transport of passengers or cargo on commercial terms. All scheduled service movements, whether loaded, empty or positioning; charter movements transporting passengers or cargo and air taxi movements are included.
Empty charter positioning movements	are movements by chartered aircraft moving into position for transport flights or returning to base after such flights.
Other commercial movements	are miscellaneous non air transport movements (eg commercial delivery or ferrying empty aircraft and local flights for the Press, survey companies or farmers).
Local pleasure movements	are commercial flights purely for public entertainment purposes ie air experience flights, joy flights at air displays.
Test and training movements	are movements for the purpose of testing aircraft or airport facilities, or for training flying crew or ground personnel. Also included in this category are demonstration flights by makers or sellers of aircraft and aviation equipment. Aero-club instructional flights are not included in this category.
Other non-commercial movements	are non-revenue earning movements by air transport operators or manufacturers for the sole purpose of moving their own aircraft, personnel or stores from one place to another, and air transport flights forced to return to base by bad weather, engine failure or other causes.
Private movements	are movements for purely non-commercial purposes by private owners or other private aircraft operators, excluding aero-clubs movements. (See below).
Aero-club movements	are movements operated by aero-club members for instruction or pleasure.
Official movements	are movements for official purposes by British or foreign civil Government Departments excluding air transport movements.
Military movements	are movements exclusively for military purposes.

PASSENGERS

Passengers	All revenue and non-revenue passengers on air transport movement flights.
A terminal passenger	is a passenger joining or leaving an aircraft at the reporting airport. A passenger travelling between two reporting airports is counted twice, once at each airport. A passenger who changes from one aircraft to another, carrying the same flight number (change of gauge) is treated as a terminal passenger.
A transit passenger	is a passenger who arrives at and departs from a reporting airport on the same aircraft which is transiting the airport. Each transit passenger is counted once only and not once on arrival and once on departure.

CARGO

Cargo	is the weight of property carried on an aircraft including for example, the weight of vehicles, excess baggage and diplomatic bags, but excluding passengers' and crews' permitted baggage and mail. When related to the activity at an airport it is usual to measure cargo as uplifted and set down. Cargo in transit through the airport on the same aircraft is excluded as is mail, company stores, excess baggage, diplomatic bags and passengers' and crews' permitted baggage.
--------------	--

TYPES OF SERVICES

- International services** are services flown between the United Kingdom, Isle of Man, Channel Islands and places outside.
- Domestic services** are services flown entirely within the United Kingdom, Isle of Man and Channel Islands.
- Cabotage** here includes traffic carried between territories of the United Kingdom, Isle of Man, and Channel Islands other than domestic services. (For the purposes of these statistics cabotage is shown under International Services.)
- Scheduled services** are those performed according to a published timetable, including those supplementary thereto, available for use by members of the public.
- Non-scheduled or charter services** include all air transport movements other than scheduled services.

Appendix B Definitions—UK Airline Statistics (a)

(a) There are some differences between the definitions used in Appendix A (UK Airport Statistics) and those used in Appendix B (UK Airline Statistics). These arise mainly because UK airlines are not asked to report non-revenue passengers or cargo.

CLASSES OF LICENCE

Licence means an air transport licence granted under Section 22 of the Civil Aviation Act 1971.

Class 1 authorises scheduled service flights;

Class 2 authorises advance booking charter flights;

Class 3 authorises inclusive tour charter flights;

Class 4 authorises other charter flights for the carriage of passengers (not being sole use charters);

Class 5 authorises substitute charter flights (except exempted operations) for other airlines using UK registered aircraft.

Class 6 authorises charter flights for the carriage of cargo and attendants;

Class 7 authorises sole-use charter flights (except exempted operations). In practice this means sole-use flights to and from Heathrow or to and from oil rigs.

NB These definitions are not intended as a comprehensive statement of each type of licence. They define the general purpose of the types of flights authorised by each class of licence. The specifications for each class of licence is published in the Civil Aviation Authority Official Record Series 1.

Exempt operations are operations for which a licence is not required. The Civil Aviation Authority in pursuance of its powers under Section 21 (2) of the Civil Aviation Act 1971 has by an instrument dated 29 March 1972 and later instruments specified a number of types of flights for which a licence is not required. The specifications of such flights are published in the Authority's Official Record Series 1 and include all sole-use charter flights other than

- (a) flights to or from a vessel or installation used or intended to be used in connection with oil or gas exploration or production under the sea, not being a vessel or installation still in the course of construction;
- (b) flights for the carriage of cargo or passengers and cargo to, from or within the United Kingdom, Channel Islands and Isle of Man by aircraft having a maximum total weight authorised of 25 000 kg or more;
- (c) flights beginning or ending at London (Heathrow) Airport, being flights for the carriage of passengers by aircraft having more than 10 seats available for occupation by passengers.

Also exempt from 1 August 1979 are substitute charter flights, on behalf of an operator using British registered aircraft, which do not (a) exceed 20% of the number of journeys authorised or advertised, whichever is the less, by the other operator in that year or period (whichever is shorter); or (b) carry more than 10% of the quantity of cargo authorised in that year or period (whichever is the shorter).

The Authority in pursuance of its powers under paragraph (b) of Section 21 (2) of the said Act may also specify in an instrument published in its Official Record, Series II an exemption for a particular flight or series of flights.

Examples of exempted flights are ambulance flights, aircrew training and test flights, Government charters and helicopters carrying externally suspended loads.

TYPES OF SERVICES

International services are services flown between the United Kingdom, Isle of Man, Channel Islands and places outside, and services flown between points outside the United Kingdom, Isle of Man and Channel Islands.

Domestic services are services flown entirely within the United Kingdom, Isle of Man and Channel Islands.

Cabotage	here includes is traffic carried between territories of the United Kingdom, Isle of Man and Channel Islands other than domestic services. (For the purposes of these statistics Cabotage is shown under International Services.)
Scheduled services	are those performed according to a published timetable, including those supplementary thereto, and available for use by members of the public.
Non-scheduled or charter services	include all air transport flights other than scheduled services.
Inclusive Tour Charter	means a charter flight for the carriage only of passengers as part of a tour, the charge for which includes carriage by air and accommodation on the surface for the whole or part of the trip.
Advance Booking Charter	means a flight operated between the UK and countries overseas complying with all the conditions set out in Schedule 5, Schedule 5A, Schedule 6 or Schedule 7 to Series 1 of the Authority's Official Record.
Sole-use Charters	are those where the charterer has exclusive use of the whole capacity of the aircraft and does not dispose of any of it to third persons for reward.
Separate Fare Charters	are those where the charterer resells part of the capacity of the aircraft to the public at large, an organisation, etc.

MEASURES AND THEIR COMPUTATION

The Civil Aviation Authority follows closely the statistical practices of the International Civil Aviation Organisation.

Aircraft days available	The sum of the number of days each aircraft is available for use. This figure includes days required for maintenance and overhaul but it does not include days between the date of purchase and the date actually placed in service, days out of service due to major accidents or conversion, days when an aircraft is in the possession of others or is not available because of government action such as grounding by government regulatory agencies.
Aircraft hours	An aircraft hour is said to be performed when an aircraft operates one hour aircraft hours are measured on the basis of block-to-block times ie the total number of hours measured from the time the aircraft moves from the loading point until it stops at the unloading point.
Aircraft hours flown per day	This is an average per aircraft computed by dividing the actual hours of use by the number of days on which the aircraft is available.
Aircraft kilometres used	Aircraft kilometres equal the sum of the products obtained by multiplying the number of flights performed by the stage distance.
All cargo services	Services relating to scheduled or non-scheduled flights performed by aircraft carrying loads other than passengers, ie cargo, baggage, mail.
Cargo (or mail) tonne-kilometres used	A metric tonne of revenue cargo carried one kilometre. Cargo tonne-kilometres equal the sum of the products obtained by multiplying the number of tonnes of cargo and diplomatic bags carried on each stage flight by the stage distance. Mail tonne-kilometres are computed in the same way.
Cargo	The weight of property carried on an aircraft including for example, the weight of vehicles, excess baggage and diplomatic bags but excluding passengers' and crews' permitted baggage and mail.
Cargo (or mail) tonnes uplifted	The number of tonnes of revenue cargo uplifted is obtained by counting each tonne of cargo or mail on a particular journey (with one flight number) once only and not repeatedly on each individual stage of that journey.
Distance flown per passenger	The average distance flown per passenger is computed by dividing the seat kilometres used by the number of passengers carried.
Seat-kilometres available	A seat-kilometre is available when a seat is flown one kilometre. Seat-kilometres available are equal to the sum of the products obtained by multiplying the number of seats available for sale on each stage flight by the stage distance. Seats not available for the carriage of passengers because of the weight of fuel or other load are excluded from the calculations.

Seat-kilometres used	A seat-kilometre is used when a revenue passenger is carried one kilometre. Calculation of seat-kilometres equals the sum of the products obtained by multiplying the number of revenue passengers carried on each stage flight by the stage distance. The resultant figure is equal to the number of kilometres travelled by all revenue passengers.
Passenger load factor	Seat-kilometres used divided by seat-kilometres available and expressed as a percentage.
Passengers uplifted	The number of passengers uplifted is obtained by counting each revenue passenger on a particular flight (with one flight number) once only and not repeatedly on each individual state of that flight.
Payload capacity	Total of aircraft capacity available for the carriage of revenue load (passengers, baggage, cargo and mail) measured in metric tonnes.
Payload carried	The revenue load of passengers, baggage, cargo and mail carried in the aircraft as measured in metric tonnes.
Revenue passengers	Those who pay 25% or more of the normal applicable fare.
Stage distance flown per aircraft	The average stage distance flown per aircraft is computed by dividing the aircraft kilometres flown by the related number of aircraft departures.
Stage flight	Is that part of an operation beginning when an aircraft takes off and ending when it next lands (including technical stops).
Tonne	1000 kilograms
Tonne-kilometres available	A metric tonne of available payload space flown one kilometre. Tonne-kilometres available equals the sum of the products obtained by multiplying the number of tonnes available for the carriage of revenue load (passengers, cargo and mail) on each flight stage by the stage distance.
Tonne-kilometres used	A metric tonne of revenue load carried one kilometre. Tonne-kilometres used equals the sum of the products obtained by multiplying the number of tonnes of revenue load carried on each flight stage by the stage distance.
Tonnes available	The capacity of the aircraft for the carriage of payload measured in tonnes.
Weight load factor	Tonne-kilometres used divided by tonne-kilometres available and expressed as a percentage.
