# Foreword

## 1 CONTENT

- 1.1 *CAA Monthly Statistics* is prepared by the Civil Aviation Authority with the co-operation of the United Kingdom airport and airline operators; some of this information is required by the Civil Aviation Act, 1971. Statistics for the Channel Islands airports are provided by the Commandant for Jersey Airport and the Lieutenant Governor for Guernsey and Alderney Airports. The assistance from all these authorities is gratefully acknowledged.
- 1.2 Some of the figures included in *CAA Monthly Statistics* are provisional only and may be revised in later issues. Figures contained in monthly and quarterly tables have not been seasonally adjusted, but figures are given, in the tables covering past years, for the most recent six months and the corresponding six months one year earlier.

## 2 CONVENTIONS

- 2.1 **Symbols and Abbreviations** The following are used throughout:

|        |   |
|--------|---|
| +      | = UK Customs airport                          |
| --     | = not available                               |
| —      | = nil or less than half the final digit shown |
| n.e.i. | = not elsewhere included                      |
| a.t-km | = available tonne-kilometres                  |

A.T. Movements = Air Transport Movements

- 2.2 **Rounding of Figures** In tables where figures have been rounded to the nearest final digit, there may be an apparent slight discrepancy between the sum of the constituent items and the total as shown.

- 2.3 **Units of Measurement** Metric measurements are used throughout *CAA Monthly Statistics*.

|                  |   |
|------------------|---|
| Tonne            | = 1000 kilogrammes  |
| Tonne-kilometres | = The product obtained by multiplying the number of tonnes carried by the distance flown measured in kilometres |

Conversion factors (foot/pound system to metric system)

|                            |                           |
|----------------------------|---------------------------|
| 1 short ton (2000 lbs)     | = 0.9072 tonnes           |
| 1 ton (2240 lbs)           | = 1.0160 tonnes           |
| 1 statute mile (5280 feet) | = 1.6093 kilometres       |
| 1 short ton-mile           | = 1.4600 tonne-kilometres |

The explanations of other terms used throughout the Tables are contained in the section on Definitions immediately following the Tables.

## 3 ENQUIRIES

- 3.1 **Statistics** Enquiries concerning the information in *CAA Monthly Statistics* should be addressed, according to the subject, as follows:

Airport and Air Passenger Statistics: Civil Aviation Authority  
Room 291  
Shell Mex House  
Strand  
London WC2R 0DP  
Tel. 01 217 4210

Airline Statistics: Civil Aviation Authority  
Room 622  
Aviation House  
129 Kingsway  
London WC2B 6NN  
Tel. 01 405 6922 Ext. 244

**3.2 Distribution** Enquiries concerning orders and subscriptions should be addressed to:

Civil Aviation Authority  
Printing and Publication Services  
Greville House  
37 Gratton Road  
Cheltenham  
Glos GL50 2BN

**4 CIVIL AVIATION STATISTICS FOR EARLIER YEARS** Statistics for the period from January 1968 to December 1972 were published in the Civil Aviation Series of the Department of Trade & Industry's *Business Monitors*.

The series comprise:

|       |  |                                |
|-------|--|--------------------------------|
| CA. 1 | <i>Airport activity</i>                            | (Monthly)                      |
| CA. 2 | <i>Air passengers</i>                              | "                              |
| CA. 3 | <i>Air freight &amp; mail</i>                      | "                              |
| CA. 4 | <i>Airline operations</i>                          | "                              |
| CA. 5 | <i>Airline operations</i>                          | (Quarterly)                    |
| CA. 6 | <i>Domestic passenger traffic</i>                  | "                              |
| CA. 7 | <i>Air passengers – international and cabotage</i> | "                              |
| CA. 8 | <i>Airline financial statistics</i>                | (Annually – 1968 to 1971 only) |

Annual versions of CA. 1 to C.A. 7 were also published.

# Civil Aviation Statistics—July 1975

## Activity at UK Airports

The level of UK air transport movements increased to over 71 000 during the month of July, a decline of 3·6 per cent against July 1974. London area movements declined more heavily than over the rest of the UK both during this month (-5·2 per cent and -2·0 per cent respectively) and when comparing the two three month periods May to July (-5·7 per cent and -1·3 per cent respectively). Stansted and Gatwick were alone among London area airports in reporting growth over this period (37·1 per cent; 101 additional movements; 1·7 per cent; 123 additional movements respectively). Heathrow reported a decline of 7·6 per cent (1861 fewer movements per month), Luton a decline of 13·9 per cent (325 fewer movements) and Southend 6·0 per cent decline (72 fewer movements). The greatest increase in actual movements over this period occurred at Aberdeen (822 additional movements: 45·6 per cent growth) followed by Lydd which also achieved the highest rate of growth (330 additional movements; over 14 fold growth) and Manchester which recorded the third highest increase in actual movements (257 per month, 6·0 per cent growth). Glasgow reported the heaviest fall in movements (552 fewer movements per month, 13·4 per cent decline) and Gloucester the heaviest rate of decline (58·6 per cent; 55 fewer movements per month). Whilst scheduled movements declined by 7·3 per cent in the three month period compared with a year earlier charter movements experienced a growth of 10·6 per cent. The UK operators' share of each declined against 1974, the former by one percentage point to 73·7 per cent and the latter marginally to 85·6 per cent.

A monthly average of 4·2 million terminal passengers used UK airports in the period May to July 1975, 6·5 per cent more than during the corresponding period for 1974. The same rate of growth was achieved in the month of July 1975 compared with a year earlier, 4·8 million passengers using UK airports. An aggregate growth of 5·9 per cent was reported by London area airports over the May to July period when Heathrow, Gatwick and Stansted reported growth in the number of passengers handled (117 554 additional passengers: 6·3 per cent growth; 55 867 passengers: 10·7 per cent growth and 7745 passengers: 38·2 per cent growth respectively). Luton was used by a monthly average of 19 582 fewer passengers (8·7 per cent decline) and Southend 5281 fewer passengers (19·0 per cent decline). Outside the London area an overall growth of 8·0 per cent was recorded. Manchester, Aberdeen and East Midlands continued to report the greatest increase in actual passengers handled (48 650 passengers: 21·1 per cent growth, 16 249 passengers: 40·2 per cent growth and 14 128 passengers: 30·3 per cent growth respectively) whilst Lydd recorded the heaviest rate of growth (over 42 fold its 1974 level). Gloucester continued to report the heaviest rate of decline in passengers handled (54·9 per cent; 701 fewer passengers) and Liverpool the largest decline in actual passengers (7014 fewer passengers: 14·2 per cent decline). In the May to July period the overall growth of 6·5 per cent in terminal passengers at UK airports comprised a 3·1 per cent growth in those travelling by scheduled services and 16·3 per cent in those travelling by charter flights. The UK operators, however, did not

benefit as much as foreign operators and their share of the former declined by 1·0 percentage point to 65·4 per cent and their share of the latter by 2·8 percentage points to 79·6.

A monthly average of nearly 4·2 million passengers departed from or arrived at UK airports in the May to July period – a 6·8 per cent growth on the corresponding period of 1974. Of these just over 3 million travelled by international services (9·2 per cent growth) and 1·13 million by domestic services (a marginal decline). International scheduled services carried 5·7 per cent more passengers than a year previously and charter services 17·6 per cent more. The most heavily used scheduled services were those to USA, France, and the Irish Republic with 13·0 per cent of total (1·9 per cent decline), 12·7 per cent of total (2·9 per cent growth) and 8·2 per cent of total (5·9 per cent growth) respectively. The most heavily used charter routes were again those to Spain (43·5 per cent of total: 23·4 per cent growth), Italy (9·8 per cent of total: 4·1 per cent growth) and Canada (7·4 per cent of total: 31·3 per cent growth). In the period May to July London routes joined those servicing Belfast and Edinburgh in carrying more domestic passengers than a year previously (1·6 per cent growth; 3·1 per cent growth and 16·4 per cent growth respectively). Channel Island passengers fell by 2·6 per cent, those travelling to and from Glasgow by 18·8 per cent and those to the Isle of Man by 8·2 per cent.

The amount of air freight handled in the UK increased slightly from June and stood at over 53 000 tonnes for the month of July 1975 (9·9 per cent less than in July 1974). London area tonnage declined by 6·3 per cent whilst that over the remainder of the UK fell more heavily by 23·0 per cent. Over the three month period May to July an overall decline of 14·5 per cent was reported; 11·7 per cent in the London area and 24·7 per cent over the rest of the UK. Gatwick again increased its previous rate of growth (51·0 per cent growth: 2201 additional tonnes per month) and Stansted also reported an increase in tonnage (5·4 per cent growth: 85 additional tonnes) whilst each of the remaining London area airports handled less tonnage than a year earlier, Heathrow by 17·7 per cent (a monthly average of 7158 fewer tonnes), Luton by 27·7 per cent (65 fewer tonnes) and Southend by 38·8 per cent (741 fewer tonnes). Lydd continued to record both the highest rate of growth in freight (over 11 fold its 1974 level) and the highest actual increase in tonnage (217 additional tonnes per month). Exeter recorded the highest rate of decline (82·2 per cent) and Manchester the greatest actual decline (1170 fewer tonnes per month). Southampton reported the second highest increase in tonnage outside the London area (89 additional tonnes; 104·4 per cent growth) followed by Aberdeen with 78 additional tonnes; 32·2 per cent growth. In the period May to July 1975, of the 14·5 per cent decline in total tonnage, that carried by scheduled services fell by 21·2 per cent whilst that carried by charter services grew by 33·5 per cent. The UK operators share of total tonnage increased by 2·5 percentage points to 51·7 per cent and whilst their share of scheduled tonnage fell by 2·3 percentage points to 45·3 per cent, their share of charter cargo increased substantially from 61·1 per cent in 1974 to 79·1 per cent in 1975.

### **Output of UK Airlines**

The output of UK airlines for all services in July 1975 was 867 million available tonne-kilometres, an increase of 4·2 per cent on July 1974.

The scheduled service output of 539 available tonne kilometres was fractionally less than in July 1974. The overall load factor of 56·4 per cent compared with 54·7 per cent a year earlier. Seat kilometres used were 63·0 per cent of those available compared with 60·1 per cent in July 1974. Seat factors on domestic and international scheduled services were 68·2 and 62·5 per cent respectively compared with 63·9 and 59·8 per cent a year earlier.

The non-scheduled output of 328 million available

tonne-kilometres was 12·4 per cent higher than in July 1974. Advance Booking Charters and Inclusive Tour Charters accounted for 57·8 and 126·0 million available tonne-kilometres respectively compared with 54·2 and 125·4 million a year earlier.

**NOTE:** Statistics of airport activity, passengers and cargo derived from data supplied by airports. Airline statistics are based on data supplied by the airlines. Data from these two sources are not strictly comparable. There are small differences in timing and more significant differences arise because airlines are not asked to report non-revenue passengers and cargo.

# Size Structure of UK Airports and Airlines Year ended 30 June 1975

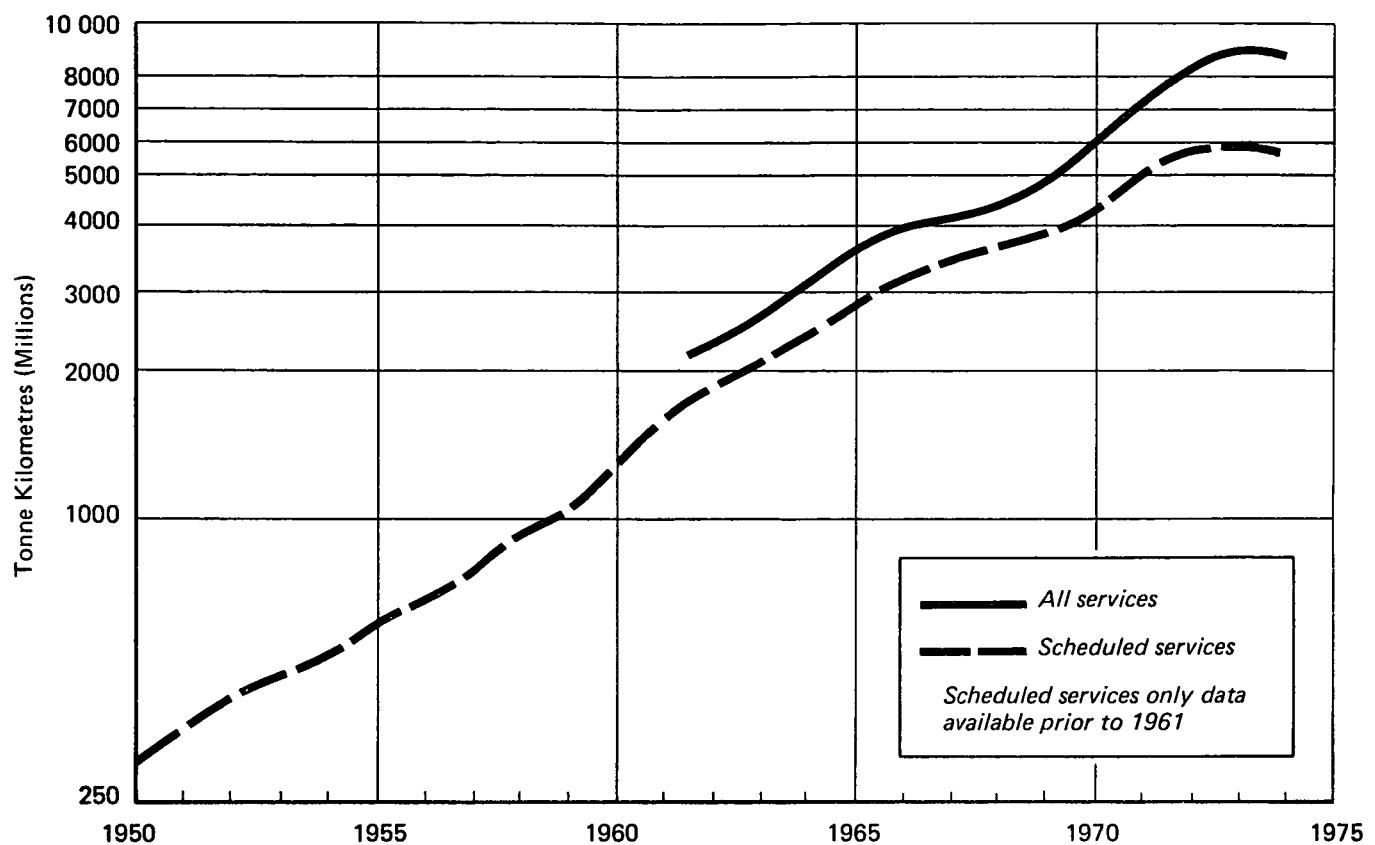

Table 1

| Airports                       | Terminal passengers (000) | Percentage of passengers at all UK airports | Percentage of airports this size and smaller | Percentage of passengers at all UK airports this size and smaller |
|--------------------------------|---------------------------|---|--|---|
| Heathrow                       | 20 537                    | 50.82                                       | 100  | 100.00  |
| Gatwick                        | 514 0                     | 12.72                                       | 98   | 49.18   |
| Manchester                     | 2 362                     | 5.84  | 95   | 36.46   |
| Luton                          | 1 796                     | 4.44  | 93   | 30.61   |
| Glasgow                        | 1 715                     | 4.24  | 91   | 26.17   |
| Belfast                        | 1 202                     | 2.97  | 89   | 21.92   |
| Birmingham                     | 1 055                     | 2.61  | 86   | 18.95   |
| Edinburgh                      | 837                       | 2.07  | 84   | 16.34   |
| Newcastle                      | 587                       | 1.45  | 82   | 14.27   |
| Aberdeen                       | 536                       | 1.33  | 80   | 12.82   |
| East Midlands                  | 489                       | 1.21  | 77   | 11.49   |
| Liverpool                      | 486                       | 1.20  | 75   | 10.28   |
| Isle of Man                    | 424                       | 1.05  | 73   | 9.08  |
| Prestwick                      | 386                       | 0.96  | 70   | 8.03  |
| Southampton                    | 317                       | 0.78  | 68   | 7.07  |
| Leeds/Bradford                 | 279                       | 0.69  | 66   | 6.29  |
| Glamorgan                      | 231                       | 0.57  | 64   | 5.60  |
| Southend                       | 226                       | 0.56  | 61   | 5.03  |
| Stansted                       | 224                       | 0.55  | 59   | 4.47  |
| Teesside                       | 182                       | 0.45  | 57   | 3.91  |
| Bristol                        | 178                       | 0.44  | 55   | 3.46  |
| Sumburgh                       | 165                       | 0.41  | 52   | 3.02  |
| Others (22 reporting airports) | 1 057                     | 2.62  | 50   | 2.62  |

| Airlines                                | Output in available tonne – kilometres (000 000) | Percentage of all UK tonne – kilometres performed | Percentage of UK airlines this size and smaller | Percentage of a.t – km of UK airlines this size and smaller |
|---|--|---|---|---|
| British Airways Overseas Division       | 4 402  | 51.47   | 100   | 100.00  |
| British Airways European Division       | 1 101  | 12.87   | 98  | 48.53   |
| British Caledonian Airways              | 818  | 9.57  | 96  | 35.66   |
| Laker Airways                           | 338  | 3.95  | 94  | 26.09   |
| Dan-Air Services                        | 332  | 3.88  | 92  | 22.14   |
| Britannia Airways                       | 302  | 3.53  | 90  | 18.26   |
| Trans-Meridian Air Cargo                | 219  | 2.56  | 88  | 14.73   |
| British Airtours                        | 161  | 1.88  | 86  | 12.17   |
| Tradewinds Airways                      | 147  | 1.72  | 84  | 10.29   |
| Monarch Airlines                        | 139  | 1.63  | 82  | 8.57  |
| International Aviation Services         | 102  | 1.19  | 80  | 6.94  |

**London** includes Heathrow, Gatwick and Stansted.

**S.E. England** includes London, Luton, Lydd, Manston and Southend.

**N. England** comprises the airports in England north of a line from the Mersey to the Humber (Manchester, Liverpool, Blackpool, Newcastle, Leeds/Bradford and Tees-side).

**Glasgow** includes Prestwick and Abbot'sinch.

- (a) N. France comprises the airports north of the line of 49° latitude.
- (b) Soviet Union and Eastern Europe includes the United Soviet Socialist Republics, Bulgaria, Czechoslovakia, Hungary, Poland, Roumania and the Eastern Zone of Germany but excluding Berlin.
- (c) North Africa includes Algeria, Libya, Morocco and Tunisia.
- (d) Commonwealth countries only.
- (e) Commonwealth countries including Rhodesia.
- (f) Middle East includes Iraq, Iran, Israel, Jordan Lebanon, Persian Gulf States, Saudi Arabia, Sudan and the United Arab Republic.
- (g) Total is in respect of charter passengers only. Passengers on scheduled flights included in London – Other Italy.
- (h) Total is in respect of charter passengers only. Passengers on scheduled flights included in other routes to Italy.

The figures show the uplift and discharge of passengers at United Kingdom airports on services operated there according to their immediate destination or last point of embarkation overseas on those services. These may not, in all cases, be the origin or destination of passenger journeys: they may be places at which a journey was broken or a connection made with another air service. The figures in this table include all passengers carried on scheduled and charter services excluding those carried on aircraft chartered by Government Departments.

# Domestic Passengers by Main Routes

(a) Heathrow, Gatwick and Stansted  
 Traffic counted in either direction

The figures show the uplift and discharge of passengers according to the destination and origin of the route. Because of the method of collection of this information there are discrepancies between the reports received from airports on a route, particularly in the case of multi-sector flights. In most cases, however, the discrepancies are small, but in a few cases the figures include an estimated component.

Table 20

Cargo by Type and Nationality of Operator July 1975

# Appendix A Definitions

## AIRPORT ACTIVITY

|  |  |
|--|--|
| <b>An air transport movement</b>         | is a landing or a take-off of an aircraft engaged on commercial air transport. The types of movement covered are all scheduled service movements, whether loaded or empty, and charter movements transporting passengers or cargo from one point to another. All other types of commercial flying are excluded (e.g. flights returning to the airport of take-off without landing elsewhere, empty charter positioning flights paid for by the charterer, ferrying of empty aircraft, etc.). |
| <b>Empty charter positioning flights</b> | are flights by chartered aircraft moving into position for transport flights or returning to base after such flights.  |
| <b>Other commercial flights</b>          | are miscellaneous non-transport charter flights (e.g. commercial delivery or ferry of empty aircraft and local flights for the Press, survey companies or farmers).  |
| <b>Test and training flights</b>         | are flights for the purpose of testing aircraft or airports, or for training flying crew or ground personnel. Also included in this category are demonstration flights by makers or sellers of aircraft and aviation equipment. Aero-club instructional flights are excluded from this category and shown under 'Aero-club'.   |
| <b>Other non-commercial flights</b>      | by air transport operators are flights by air transport operators for the sole purpose of moving their own aircraft, personnel or stores from one place to another, and air transport flights forced to return to base by bad weather, engine failure or other causes.   |
| <b>Private flights</b>                   | are flights for purely private purposes by private owners or other private aircraft operators, excluding aero-club flights.  |
| <b>Aero-club flights</b>                 | are flights operated by aero-club members for instruction or pleasure.   |
| <b>Official flights</b>                  | are flights for official purposes by British or foreign civil Government Departments excluding air transport movements.  |
| <b>Military flights</b>                  | are flights by British or foreign military personnel exclusively for military purposes.  |

## AIR PASSENGERS

|                             |   |
|-----------------------------|---|
| <b>Passengers</b>           | includes all revenue and non-revenue passengers on air transport flights. Air crew being carried on such flights other than as members of the aircraft's complement are classified as non-revenue passengers.       |
| <b>Revenue passengers</b>   | are those who pay 25 per cent or more of the normal applicable fare.  |
| <b>A terminal passenger</b> | is a passenger joining or leaving the aircraft flight at the reporting airport. A passenger travelling between two reporting airports is counted twice, once at each airport.                                       |
| <b>A transit passenger</b>  | is a passenger who arrives at and departs from a reporting airport on the same aircraft which is transiting the airport. Each transit passenger is counted once only and not once on arrival and once on departure. |

- International services** are services flown between the United Kingdom (including Great Britain, Isle of Man, Channel Islands and Northern Ireland) and places outside.
- Domestic services** are services flown entirely within Great Britain, Isle of Man, Channel Islands and Northern Ireland.
- Cabotage** is traffic carried between territories of the United Kingdom other than domestic services.
- Scheduled services** are those performed according to a published timetable, including those supplementary thereto, and open to use by members of the public.
- Non-scheduled services** include all air transport flights other than scheduled services.
- Charter services** are those transporting passengers or cargo for hire or reward from one point to another, other than scheduled services.

## AIR CARGO

- Cargo** in airport statistics means the weight of cargo (including accompanied vehicles) picked up and set down by aircraft on air transport flights. Cargo in transit through the airport on the same aircraft is excluded as is mail, company stores, excess baggage and diplomatic bags picked up and set down. (See also definition below under 'Airline Operations').
- Tonnes** are metric tonnes of 1 000 kilograms (2 204·62 lb).

## AIRLINE OPERATIONS

- Advance booking charters (ABC)** Charter flights operated under Class 2 licences between the UK and designated territories overseas in respect of which an operator has sold blocks of seats to one or more licensed travel organisers for resale to passengers. Details of the sales to travel organisers have to be notified to the Civil Aviation Authority 120 days before the date of the flight: details of the sales of seats to passengers which must be on a round trip basis have to be notified to the Authority 60 days before departure.
- Aircraft-hour** an aircraft hour is performed when an aircraft flies for one hour: aircraft hours are measured on the basis of block-to-block time.
- Aircraft-kilometre (Aircraft-km)** An aircraft-kilometre is performed when an aircraft flies one kilometre. Aircraft-kilometres equal the sum of the products obtained by multiplying the number of flights performed on each stage flight by the stage distance measured in kilometres.
- Cargo** in airline statistics means the weight of any property carried on an aircraft, including the weight of vehicles carried, mail and diplomatic bags, but excluding passengers' baggage. (See also definition above for 'Air Cargo' statistics and definition below for 'Passenger tonne-kilometres').
- Cargo tonne-km** means a metric tonne of cargo carried one kilometre. Cargo tonne-kilometres equal the sum of products obtained by multiplying the number of tonnes of cargo carried on each flight stage by the stage distance measured in kilometres.

|   |   |
|---|---|
| <b>Cargo uplifted</b>                             | means the number of tonnes of cargo which is obtained by counting each tonne of cargo on a particular flight (with one flight number) once only and not repeatedly on each individual stage of that flight. The only exception to this is for cargo flown on both the international and domestic stages of the same flight which is considered in computation both as a domestic and an international shipment or despatch.   |
| <b>Daily utilisation per a/c (hrs)</b>            | is an average per aircraft measure computed by dividing the aircraft hours of use by the number of days on which the aircraft are available. This latter figure includes days required for maintenance and overhaul but it does not include days between the date of purchase and the date actually placed in service, days out of service due to major accidents or conversion, days when an aircraft is in the possession of others or is not available because of government action, such as grounding by government order.  |
| <b>Exempt operations</b>                          | are operations for which a licence is not required. The Civil Aviation Authority in pursuance of its powers under paragraph (a) of Section 21(2) of the Civil Aviation Act 1971 has by an instrument dated 29 March 1972 and later instruments specified a number of types of flights for which a licence is not required. The specifications of such flights are published in the Authority's Official Record Series 1 but typical examples are ambulance flights, aircrew training and test flights, Government charters, helicopters carrying externally suspended loads, etc. |
| <b>Inclusive tours (IT)</b>                       | are separate fare charters where the cost to the passenger includes the cost of accommodation.  |
| <b>Licence</b>                                    | means an air transport licence granted under Section 22 of the Civil Aviation Act 1971.   |
| <b>Mail</b>                                       | covers only that handled by postal administrations and includes troop mail.   |
| <b>Mail tonne-km</b>                              | are calculated using the same principle as when calculating cargo tonne-km.   |
| <b>Overall load factor</b>                        | is an expression of tonne-km used as a percentage of tonne-km available.  |
| <b>Passengers</b>                                 | in airline statistics means revenue passengers only, i.e. passengers paying 25 per cent or more of the normal fare.   |
| <b>Passenger-km</b>                               | means a passenger carried one kilometre. Calculation of passenger-kilometre equals the sum of the products obtained by multiplying the number of passengers carried on each flight stage by the stage distance measured in kilometres. The resultant figure is equal to the number of kilometres travelled by all passengers.<br>Note.—Passenger-km is numerically equivalent to Seat-km used.  |
| <b>Passenger load factor</b>                      | is an expression of seat-km used as a percentage of seat-km available.  |
| <b>Passengers uplifted and passengers carried</b> | The number of passengers uplifted is obtained by counting each revenue passenger on a particular flight (with one flight number) once only and not repeatedly on each individual stage of flight.   |
| <b>Passenger tonne-kilometres</b>                 | is deduced as the difference between the total tonne-kilometres used and tonne-kilometres used for cargo and/or mail; it includes the weight of passengers' free and excess baggage.  |

|                               |   |
|-------------------------------|---|
| <b>Seat-km available</b>      | a seat-kilometre is available when a seat is flown one kilometre. Seat-kms available are equal to the sum of the products obtained by multiplying the number of passenger seats available for sale on each stage flight by the stage distance measured in kilometres.                             |
| <b>Seat-km used</b>           | a seat-kilometre is used when a seat occupied by a revenue passenger is flown for one kilometre. Seat-km used is equal to the sum of the products obtained by multiplying the number of revenue passengers carried on each stage flight by the stage distance measured in kilometres.             |
| <b>Separate fare charters</b> | are those where the charterer re-sells part of the capacity of the aircraft to the public at large; an organisation, etc.   |
| <b>Sole-use charters</b>      | are those where the charterer has exclusive use of the whole capacity of the aircraft and does not dispose of any of it to third persons for reward.  |
| <b>Stage flights</b>          | that part of the flight between two consecutive places, i.e. from take-off to the next landing, excluding technical stops, on the route.  |
| <b>Tonne-km available</b>     | a metric tonne of payload space available flown one kilometre. Tonne-km available is equal to the sum of the products obtained by multiplying the number of tonnes available for the carriage of revenue load (passengers and cargo) on each stage flight by the distance measured in kilometres. |
| <b>Tonne-km used</b>          | a metric tonne of revenue load carried one kilometre. Tonne-km used is the sum of the products obtained by multiplying the number of tonnes of revenue load (passengers and cargo) carried on each stage flight by the distance measured in kilometres.   |

## Appendix B Classes of Licence

**NB** These definitions are not intended as a comprehensive statement of each type of licence. They define the general purpose of the types of flights authorised by each class of licence. The specification for each class of licence is published in the Civil Aviation Authority Official Record Series 1.

**Class 1** authorises scheduled service flights;

**Class 2** authorises advance booking charter flights;

**Class 3** authorises inclusive tour charter flights;

**Class 4** authorises other charter flights for the carriage of passengers;

**Class 5** authorises substitute charter flights;

**Class 6** authorises charter flights for the carriage of cargo and attendants;

**Class 7** authorises sole-use charter flights.
